

Taunton Girls Softball Return to Competition

DISCLAIMER: Participants, parents, family, and spectators engaging in softball and activities related to softball do so with knowledge of the risk and potential exposure involved and agree to accept any and all inherent risks to their personal health.

NOTE TO ALL PARTICIPANTS: USA Softball does not dictate when local, state and metro associations can start playing softball during the COVID-19 pandemic. Starting play will be determined by local associations working with their local governmental agencies. Teams coming from other areas should respect and follow their local governmental agency restrictions (where they reside) before signing up for tournaments.

This manual is the Taunton Girls Softball League best practices for our league and complex, as developed by our TGSL eBoard to return to playing softball and direction from USA Softball of Massachusetts and the State of Massachusetts COVID-19 Task Force Team. These best practices are designed to help operate events and return players back to the field post COVID-19. They do not replace or supersede any protocols or restrictions outlined by state or local authorities. Taunton Girls Softball League will continue to follow all local or state guidelines.

- Once approved, the tournament MUST send each team a copy of this calculation along with their refund.
